-  Lahore

SKILLS:

- Java & C++
- Flutter
- HTML & CSS
- Object-Oriented Programming
- Software Design Patterns
- Database Management (Firebase)

EDUCATION:

UNIVERSITY OF MANAGEMENT AND TECHNOLOGY (UMT)

2022 - Present

BS Software Engineering

- Current Semester: 8th
- CGPA: 3.4/4.0

LANGUAGE:

- English
- urdu

PROFILE:

Motivated Software Engineering student in my 8th semester with a strong foundation in mobile and web development. Passionate about leveraging AI and machine learning to build impactful applications. Eager to bring my skills in Flutter, Java, and C++ to a dynamic development team and tackle complex, real-world problems.

PROJECTS

FITSAGE (FINAL YEAR PROJECT) | AI FITNESS APP

- Developing an AI-powered mobile application for fitness and nutrition tracking.
- Trained a custom machine learning model for accurate food recognition from user-uploaded images.
- Implemented logic to process image data and return detailed nutritional information to the user.

GYM MANAGEMENT APPLICATION

- Built a cross-platform mobile application using Flutter to streamline gym operations.
- Integrated Firebase Firestore for real-time database management, secure data storage, and user authentication.
- Designed an intuitive user interface for managing memberships and tracking gym activities.

PERSONAL PORTFOLIO WEBSITE

- Designed and developed an interactive, cross-platform personal portfolio using Flutter and Dart.
- Implemented responsive UI components to ensure seamless rendering and performance across both web and mobile platforms.
- Integrated smooth animations and dynamic layouts to effectively showcase software engineering projects and technical skills.
