Software Engineering

CONTACT:

-  03234022643
-  mutahiraasadd@gmail.com
-  Lahore
-  <https://github.com/mutahiraasadd-hub>

SKILLS:

- C++
- Flutter
- HTML & CSS
- Django
- AI/ML & Data Augmentation
- Object-Oriented Programming
- Software Design Patterns
- Database Management (Firebase)

EDUCATION:

UNIVERSITY OF MANAGEMENT AND TECHNOLOGY (UMT)

2022 - Present

- BS Software Engineering
- Current Semester: 8th
 - CGPA: 3.4/4.0

LANGUAGE:

- English
- urdu

PROFILE:

Motivated Software Engineering student in my 8th semester with a strong foundation in mobile and web development. Passionate about leveraging AI and machine learning to build impactful applications. Eager to bring my skills in Flutter,django,HTML/CSS and C++ to a dynamic development team and tackle complex, real-world problems.

PROJECTS

FITSAGE (FINAL YEAR PROJECT) -FLUTTER, FIREBASE, ML (EFFICIENTNETB0)

- Developing an AI-powered mobile application for fitness and nutrition tracking ,personalized macro calculations, and custom UI components
- 88.46% classification accuracy.Trained a custom EfficientNetB0 model on a self-curated dataset of 150 food classes with data augmentation on underrepresented classes, achieving
- Integrated the trained ML model into the app for real-time food recognition and calorie estimation.
- Implemented logic to process image data and return detailed nutritional information to the user.

GYM MANAGEMENT APPLICATION - FLUTTER, SQLITE (SQLITE), PROVIDER

- Built a complete gym membership management app to track member records, fee payment status, and upcoming due dates based on joining date.
- Implemented full CRUD — Add, Update, Delete members — with persistent local storage using sqflite.
- Used Provider for state management, ensuring reactive UI updates across screens without unnecessary rebuilds.

PERSONAL PORTFOLIO WEBSITE

- Designed and developed an interactive, cross-platform personal portfolio using Flutter and Dart.
- Implemented responsive UI components to ensure seamless rendering and performance across both web and mobile platforms.
- Integrated smooth animations and dynamic layouts to effectively showcase software engineering projects and technical skills.
